[LSG]

立足软件安全和病毒分析最前端，丰富的技术版块交相辉映，由无数加密解密及反病毒爱好者共同维护，留给世界一抹值得百年回眸的惊艳，沉淀百年来计算机应用之精华与优雅，信息线条与生活质感淡定交融，任岁月流转，低调而奢华的技术交流与研究却是亘古不变。

标题：卡饭上的马 分析

作者：smallyou93

样本来源: <http://bbs.52pojie.cn/thread-23199-1-1.html>

1.调用 CMD 执行以下命令:

```
cmd /c sc config ekrn start= disabled
```

```
cmd.exe /c taskkill.exe /im ekrn.exe /f
```

明显针对 Nod....

2.释放文件%SystemRoot%\System32\killdll.dll

反复写入该文件并加载

```
%SystemRoot%\System32\rundll32.exe %SystemRoot%\System32\killdll.dll testall
```

篡改驱动

```
%SystemRoot%\System32\Drivers\aec.SYS
```

```
%SystemRoot%\System32\Drivers\AsyncMac.sys
```

加载, 恢复 SSDT

添加 IFEO, 挟持多种安软

删除启动项

```
HKLM\SOFTWARE\Microsoft\Windows\CurrentVersion\Run
```

最后删除自身

3.释放文件%SystemRoot%\??????_xeex.exe

下载木马群。。。

```

1:http://u8.d7n9.com/sb/01.exe
1:http://u0.d7n9.com/cj/sb1.exe

4. 释放文件%SystemRoot%\System32\Drivers\pcidump.sys
安装驱动并加载恢复 SSDT

_uok.bat (可能是随机名)

删除自身

:Repeat

del "C:\DOCUME~1\SMALLY~1\桌面\Actvev.exe"

if exist "C:\DOCUME~1\SMALLY~1\桌面\Actvev.exe" goto Repeat

rmdir C:\DOCUME~1\SMALLY~1\桌面

del "C:\DOCUME~1\SMALLY~1\LOCALS~1\Temp_uok.bat"

篡改驱动

%SystemRoot%\System32\Drivers\aec.SYS

%SystemRoot%\System32\Drivers\AsyncMac.sys

加载，恢复 SSDT

启动进程%SystemRoot%\?????_xeex.exe

%SystemRoot%\System32\Drivers\pcidump.sys

安装驱动并加载恢复 SSDT

关键是驱动，如果看守好 drivers 目录的话，这病毒就没戏了
